Three-Way Purge Valve

Purge Air Check Valves

Liquid Fuel Check Valve

The JASC **Water Cooled Liquid Fuel Check Valve** has proven itself in eliminating coking by using an existing closed-loop water supply as the cooling medium.

Industries where JASC products are used

- | | |
|-------------------------|-----------------------|
| *Gas turbine industries | *Marine |
| *Aerospace | *Petroleum production |
| *Military | *Petroleum refining |
| *Aviation | *Water |
| *Chemical | *Oil and gas |
| *Food and beverage | *Mining |

Refurbishment service is available for check valves and the three-way purge valve. Each valve is completely reconditioned to like new.
